### 気候・地理 Climate and geography

慶尚南道は韓半島の東南側に位置し、北西方面は高い山脈が横たわるため、冬の冷たい北西風を防ぎ、韓国で最も温暖な地域。南部はリアス式海岸で水深が深く、多島海で大小の港湾や岬が多い。

Gyeongsangnam-do is located on the southeastern side of the Korean Peninsula and high mountain ranges lie to the northwest. Therefore, the cold northwest winds of winter are blocked and it is the warmest region in Korea. The shoreline in the south is a ria coast with deep sea water and there are numerous islands with large and small ports and bays as well as promontories.

## 交流内容 Exchange contents

県内に暮らす在日韓国人の多くが慶尚南道出身であることなどを背景に、2012年2月6日「友好交流に関する合意書」を締結。両県道代表団による相互訪問のほか、HUMAP（兵庫アジア太平洋大学間交流）の枠組みでの交流、高校生・中学生交流を実施。また、慶尚南道に「ひょうご国際観光デスク」を設置して観光交流にも取り組むほか、陶芸交流なども推進。

Against the backdrop of many Korean residents in Hyogo Prefecture being from Gyeongsangnam-do, the two regions concluded an "Agreement on Friendship Exchange" on February 6, 2012. In addition to mutual visits by both prefectural delegations, the two regions conducted exchanges through HUMAP (Hyogo University Mobility in Asia and the Pacific) and exchanges of junior high school and senior high school students. In addition, Hyogo has set up the "Hyogo International Tourism Desk" in Gyeongsangnam-do to promote and engage in tourism exchanges as well as pottery exchanges.
